Folding Walking Stick with Stand-Assist Handle & LED Light

Model **EK-8020** · Joy Ours part no. **JOY-WALK-8020**

A folding stick with a second, lower handle to push up from a chair, an LED light and a base that stands on its own.

KEY FEATURES

- **Stand-assist lower handle** A second grip below the main handle to push on when rising from a chair, bed or car seat.
- **LED light in the handle** Lights the ground ahead in low light. Button cells are supplied.
- **Stands on its own** The wide multi-foot base with rubber feet keeps it upright on level floors when you let go.
- **Soft foam grips** Foam padding on both handles for a comfortable hold.
- **Five height settings** Adjusts from 84 to 96 cm.
- **Folds in three** Packs down into three sections to carry or store.

WHO IT SUITS

- People who need extra leverage to get up from a chair, bed or car seat
- Night-time walks to the bathroom or coming home after dark
- Users who find bending to pick up a stick difficult
- Users up to 100 kg who suit a stick height of 84-96 cm

GOOD TO KNOW

- Stand the stick on flat, level ground when you let go of it.
- The LED runs on stacked button cells, which come with the stick.
- A wrist strap is included.
