Suction Scoop Bowl

Model **EK-B903** · Joy Ours part no. **JOY-DALY-B903**

A light scoop bowl with a high, inward-curved rim and a suction base, for scooping with one hand.

KEY FEATURES

- **High, curved rim** The tall side curves inwards to guide food back onto the spoon.
- **Low front edge** A lower front edge makes it easier to get the spoon in.
- **Suction base** Food-grade silicone base grips smooth, flat surfaces so the bowl stays put while you scoop.
- **Microwave safe** Reheat a meal in the bowl without moving it to another dish.
- **Light to lift** About 85.5 g including the suction base.

Suction Base Diameter	11 cm / 4.5"
Suction Base Material	Food-grade Silicone
Suction Base Inner Ring Diameter	8 cm / 3"
Net Weight (Including Suction Base)	Approx. 85.5 g

WHO IT SUITS

- People eating with one hand who need the bowl to stay still
- Reduced hand strength or coordination that makes scooping from a normal bowl messy
- Carers setting up a meal so the user can feed themselves
- Anyone who wants a scoop bowl that looks like everyday tableware

GOOD TO KNOW

- Place the bowl on a smooth, flat surface, such as a bare table top, so the suction base can grip.
