Curved Transfer Board

Model **EK-B918** · Joy Ours part no. **JOY-XFER-B918**

An 80 cm curved board for sliding across between bed, wheelchair, chair or car seat, rated to 150 kg.

KEY FEATURES

- **Seated transfers** Bridges a bed, wheelchair, chair or car seat.
- **Bevelled ends** Thin ends slide under the user and pull out easily.
- **Non-slip underside** An 11.5 cm toothed grip zone at each end.
- **Five reinforcing ribs** Strengthen the board from underneath.
- **Hand hole** To carry and position the board.
- **Light 1.65 kg board** Easy to carry between rooms or keep in the car.

WHO IT SUITS

- People with enough sitting balance and arm strength to slide across while seated
- Transfers between a wheelchair and a bed, chair or car seat
- Carers assisting a seated transfer without lifting

GOOD TO KNOW

- The board is 1.2 cm thick and weighs 1.65 kg.
- Check both seats are stable and the non-slip ends rest firmly before the user moves across.
