Curved Transfer Board with Positioning Notches

Model **EK-B928** · Joy Ours part no. **JOY-XFER-B928**

A curved 80 cm transfer board with notches that locate against a suitable wheelchair frame, and hanging holes.

KEY FEATURES

- **Positioning notches** Locate against a suitable wheelchair frame.
- **Hanging holes** Three round holes to hang it on a hook or add a strap.
- **Bevelled ends** Easy to place under the user and remove.
- **Non-slip underside** Grip zones at each end help it stay put.
- **Hand hole** Easy to carry and position.
- **150 kg rating** Safe working load of 150 kg.

SPECIFICATIONS

SWL	150 kg
Width	21 cm
Length	80 cm
Weight	1.65 kg
Material	ABS
Thickness	1 cm

WHO IT SUITS

- Wheelchair users who transfer sideways to a bed, chair or car seat
- Wheelchairs whose frame suits the board's positioning notches
- Homes where the board hangs on a hook between uses
- Users with enough sitting balance and arm strength for seated transfers

GOOD TO KNOW

- Check the notches suit your wheelchair frame before relying on them.
- Hang it by the round holes so it is easy to find.
- At 1 cm thick, it is slightly thinner than the basic EK-B918.
