Woodgrain Aluminium Underarm Crutches

Model **EKS4207** · Joy Ours part no. **JOY-WALK-4207**

A pair of light aluminium underarm crutches in a woodgrain finish, with nine heights and adjustable hand grips.

KEY FEATURES

- **Light aluminium frame** Aluminium alloy gives dependable support without the bulk of heavier materials.
- **Woodgrain finish** A natural-looking woodgrain look with fluorescent green accents, for a more modern appearance.
- **Two separate adjustments** Push buttons set the overall height (113-133 cm, nine positions) and the hand grip position.
- **Cushioned underarm pads** Soft pads at the top and comfortable hand grips make regular use more pleasant.
- **Reinforced three-way joint** An oversized connector adds strength where the upper frame meets the lower tube.
- **Non-slip rubber tips** TPR rubber tips give grip on everyday walking surfaces.
