Shock Absorbing Forearm Crutches

Model **EKS8200** · Joy Ours part no. **JOY-WALK-8200**

A pair of 0.8 kg forearm crutches with spring shock absorbers that come apart into three pieces for travel.

KEY FEATURES

- **Spring shock absorbers** Help cushion each step and reduce jarring through the hands and arms.
- **0.8 kg per crutch** 6063-T5 aluminium keeps each crutch light to handle.
- **Three-piece design** Each crutch comes apart for packing into a car or bag.
- **Anti-drop cuff straps** Elastic straps keep the crutches on your forearms when you let go briefly.
- **Ten height settings** 98.5 to 121.5 cm, for users about 150 to 185 cm tall.
- **Reflective cuffs** Front and rear reflectors make you easier to see in low light.

WHO IT SUITS

- People who use forearm crutches every day and want some cushioning in each step
- Travellers who need crutches that pack down small
- Users about 150 to 185 cm tall, up to 100 kg
- Walking outside early in the morning or in the evening

GOOD TO KNOW

- Sold as one pair (two crutches).
- After taking them apart, check each section is fully fitted back together before you walk.
- Set both crutches to the same height.
