Folding Forearm Crutch with Adjustable Arm Support

Model **EKS852** · Joy Ours part no. **JOY-WALK-852**

A folding forearm crutch with adjustable height, arm support position and angle, and handle length.

KEY FEATURES

- **Adjustable arm support** Six positions and three angles to fit the support to your forearm.
- **Three handle lengths** Set the grip to suit your reach.
- **Eight height settings** 85 to 115 cm, for users about 150 to 180 cm tall.
- **6 mm EVA padding** A cushioned, shaped rest for your forearm.
- **Anti-drop strap** Keeps the crutch on your arm when you let go briefly.
- **Folds for storage** The aluminium frame folds for storage at home or travel.

WHO IT SUITS

- People who find standard forearm cuffs don't sit comfortably on their arm
- Users who need the cuff and grip set for a longer or shorter arm or reach
- Users about 150 to 180 cm tall, up to 100 kg
- People who need one crutch rather than a pair

GOOD TO KNOW

- Sold as a single crutch. Order two if you need a pair.
- With several adjustments on one crutch, check every setting is secure before you put weight on it.
