WHO IT SUITS

- People who want to drive themselves rather than be pushed
- Carers who need a power chair light enough to lift into a car
- Shopping trips, appointments and outings within 12 km per charge
- Users up to 136 kg

GOOD TO KNOW

- Take out the 2.1 kg battery before lifting the chair into the car; it makes the frame lighter and lets you charge the battery separately.
- The maximum climbing slope is 6°, so check ramps and driveways on your usual routes.
- A full charge takes 3-6 hours with the 2A charger.
